

Proline Prof Interface foam pad

Product details

Product description

Agera® | Proline Prof interface foam pads are used for sanding delicate surfaces such as profiles and contours with the sander. The secret to a great finish lies in the use of the right pad and abrasive for the application at hand. The interface pad will be used between the backing pad and the sanding disc and provides cushioning which allows you to sand profiles and contour surfaces.

Product information

Ø150MM 48 Holes

Ø178MM No holes

Storage

Store in its original box on "first-in - first-out" cycle. Note: The shelf life may be shortened if the original packaging is not properly sealed or stored in an environment with high temperatures or humidity.

16 °C / 26 °C

35 - 50 %
